

“Report on Cyber Awareness Day - 01 June, 2022”

In today's digital world, cyber security has become increasingly vital. Cyber attackers and bad actors no longer target only enterprises and corporations, but also individuals. It is no longer a concern for security professionals and web administrators only to keep track of them. Every person's life now revolves on cyber security.

The NSS Cell of Jharkhand Rai University, Ranchi, celebrated a Cyber Awareness Day on June 1, 2022, at 11:00 a.m. in the Seminar Hall to raise the awareness about cyber security and to make a concerted effort to stay safe and secure online.

Dr. Ashish Kumar Sinha, Associate Professor of Computer Science and IT Department, gave an Expert Talk on the topic of "**Cyber Security and its Awareness.**" He discussed social media-based cyber-attacks, as well as illegal links and credit risk. He also discussed how we might protect people from cyber-attacks by taking safeguards.

The expert talk was attended by more than 50 NSS Volunteers. Dr. Ashish spoke about cybercrime and the cashless economy, the benefits of being cashless, and the safety and security precautions that should be taken when doing online transactions and using the credit card.

The session concluded successfully with questions & answers which Dr. Ashish replied and debated.
