The workshop was conducted keeping in mind the following goals:

- To create awareness on mushroom.
- To strengthen the livelihood of rural people.
- To encourage the residents of the village, to grow mushroom and sell in the local market for their economic upliftment.
- To create awareness among village people about the depletion of natural resources, their sustainability, importance and various techniques to protect them.
- To make the villagers aware about the importance of Water and Soil conservation

Guest Speakers: Prof. Anjani Kumar & Kavya Sidhi Kujur and Mavish, Jharkhand Rai University, Raja Ulatu, Namkum

Target Audience: Local People of Raja Ulatu

No. of Participants: 40

Event Description

On day four all NSS volunteers of Jharkhand Rai University, Ranchi along with University NSS programme officer accompanied by agricultural faculty members reached to Raja Ulatu village creating awareness under the theme **“Soil and Water Conservation”**. Prof. Anjani Kumar did the work of educating the farmers on the benefits of organic farming and soil and water conservation. At the same time, the work of mushroom production training was done by Kavya Sidhi Kujur and Mavish, students of Jharkhand Rai University, Raja Ulatu, Namkum, Ranchi from the department of Agriculture.

Outcome of the Event:

Villagers were taught that mushroom cultivation can trigger their economic conditions.

They were motivated to adopt mushroom farming.

People were realized that soil degradation has become a serious concern in all parts of the country. Before the things worsen, the villagers must conserve this precious natural resource. In one to one interaction, NSS Volunteers made the villagers to understand the ill effects of contaminated water. The volunteers took the assurance from the villagers to save and conserve water.
