

"The Foundation Program"
Deeksharambh
Starts : 18th Aug, 2026

"सा विद्या या विमुक्तये"

I take this opportunity to congratulate and welcome all the students who have been admitted into various undergraduate & post graduate degree and diploma programs at **Jharkhand Rai University (JRU), Ranchi**.

At JRU, we are committed to building a strong academic foundation for our students by fostering a learning environment that emphasizes dynamic research, practical training, and professional mentorship. With a belief in making higher education inclusive and transformative, we aim to shape young minds into leaders equipped with globally relevant, future-ready knowledge and values. The aim is to build skills, while values and character remain an integral part of the Jharkhand Rai University academic system. The University promotes a holistic education ecosystem, where the goal is not merely to make students work-ready but also to nurture them into good human beings.

Keeping in mind the diverse backgrounds of our students, the University brings you a meticulously designed Foundation Program titled **"Deeksharambh - The ROOTS Program 2026"**, commencing from **18th August 2026**.

ROOTS – 2026 is conceptualized to ease transition into university life, helping the students to acclimatize into the new academic setting, build meaningful relationships with peers and faculty, and gain a deeper understanding of their strengths and aspirations. During the program, students will build a network of resources that will support them throughout their academic journey. By the end of ROOTS, students will feel confident and prepared to begin their exciting educational journey with JRU.

ROOTS – 2026 will begin with a **Two-Day Orientation Program** which is an **Introductory Session** packed with ice-breaking sessions and engaging activities. This will be followed by an academic refresher session covering the **Basics of Science, Mathematics, English, Chemistry, IT, and Biology**, ensuring students from all streams start from a common foundation before entering their respective credit-based programs.

Beyond academics, ROOTS will include various **club activities** conducted by JRU's **Cultural Club, Sports Club, Health Club and Science Club** etc. to promote holistic development.

Courses on **"Jeevan Mulya"**, **"Bhartiya Knowledge System"**, **"Panch Parivartan"**, **"Manobal"** and **"Fostering Social Responsibility"** form integral components of this foundation Program. These modules are aimed at building culturally rooted, empathetic, and socially aware individuals who can contribute meaningfully to society.

As a special highlight, the program will feature “**Expert Talks**” by distinguished professionals from industry and “**Alumni Wit**”, where former students share their personal experiences and insights from campus life.

ROOTS – 2026 is thoughtfully structured to provide a glimpse of the learning experience that lies ahead in the academic journey. The program concludes with a mix of **fun-filled learning activities and memorable interactions**.

We encourage full participation in the ROOTS and Orientation Program. Please do visit our website regularly for any updates and explore the various support services available to you. Feel free to reach out for any assistance or clarification you may need.

Thank you for being a valuable part of the **JRU family!**

We extend a heartfelt welcome as you embark on this remarkable journey toward academic excellence and personal transformation.

All the Best!

Dr. Amrita Majumdar
